## 1 Introduction

### 1.1 Purpose

This is the purpose of the document [1]

### 1.2 Scope of this document

Describe what this document covers

### 1.3 Definitions

Provide a table of definitions, terms, and abbreviations used in this document

| Term | Description          |
|------|----------------------|
| SENG | Software Engineering |
|      |                      |
|      |                      |

### 1.4 Version History

Provide a table of table of changes to this document

| Version No | Description of change | Date       |
|------------|-----------------------|------------|
| 1.0        | Initial Release       | 15.10.2024 |
|            |                       |            |

## 2 Proposed Project

### 2.1 Description

Brief description of the proposed project

### 2.2 The Need

Explain what need this project is addressing

### 2.3 Technology

Describe the technology and tools needed to develop this project

### 2.4 Risks

State what risks are anticipated and contingency plans

## 3 Existing/Similar Solutions

### 3.1 Product 1

#### 3.1.1 Solution Description

Describe what this product provides

#### 3.1.2 Shortcomings

Describe how the proposed project will provide a new/alternate solution

## **3.2 Product 2**

### **3.2.1 Solution Description**

Describe what this product provides

### **3.2.2 Shortcomings**

Describe how the proposed project will provide a new/alternate solution

## **3.3 Product ..**

### **3.3.1 Solution Description**

Describe what this product provides

### **3.3.2 Shortcomings**

Describe how the proposed project will provide a new/alternate solution

## **4 Conclusion**

Provide a discussion of how the proposed solution will address the shortcomings of the existing solutions.
