ÇANKAYA UNIVERSITY

Software Engineering Department

SENG 491 – 492 Graduation Project

Development Environment

<<Project Name>>

<<Project Members>>

Version <<1.0>>

Table of Contents

1   Introduction

1.1   Purpose

This subsection should
- a)   Delineate the purpose of the document;
- b)   Specify the intended audience for the document.

1.2   Scope

This subsection should describe the scope of this document, what it will cover and will not cover, intended audience, ...

1.3   Definitions, acronyms, and abbreviations

This subsection should provide the definitions of all terms, acronyms, and abbreviations required to properly interpret the document. This information may be provided by reference to one or more appendixes in the document or by reference to other documents.

1.4   References

This subsection should
- a)   Provide a complete list of all documents referenced elsewhere in the document;
- b)   Identify each document by title, report number (if applicable), date, and publishing organization;
- c)   Specify the sources from which the references can be obtained.

If the list of references is too long, it should be provided at the end of the document as a separate section.

1.5   Overview

This subsection should
- a)   Describe what the rest of the document contains;
- b)   Explain how the document is organized.

1.6   Version History

Provide a table of table of changes to this document

Version No	Description of change	Date
1.0	Initial Release	15.10.2024

2   Programming Environment

2.1   Programming Language

State what programming language(s) is used, frontend, backend, ...

2.2   Integrated Development Environment (IDE)

State what IDE(s) is used to develop the application, frontend, backend, ... with versions

3   Tools and Libraries

3.1   Tools

List and give a brief description of each tool used

3.2   Libraries

List and give a brief description of each library used

4   Database Management System (DBMS)

Provide the name and version of the DBMS and state why this DBMS was selected.

5   Software Configuration Management (SCM)

Describe where the code is stored and how the configuration and version control is managed.

6   References

The resources used to produce this document should be listed here and referenced in the relevant text of this document
