

You should have a separate file for each test case listed in the Test Design Specifications. Note that the first 4 fields are the same as provided in the in the TDS. Please store the test cases in a directory structure organized by features and subfeatures.

Please zip the whole directory structure and submit the file with your Test Plan and Design Specification document.

Use the format below for each TC. Note that each TC should be in a separate file and placed at the bottom of the directory structure.
